ABOUT US

Hamax Healthcare LLP is a WHO-GMP certified pharmaceutical manufacturer with over **40 years of excellence** in the development and production of high-quality pharmaceutical formulations. Established in **1983**, the company has evolved from a single-tablet division into one of India's most trusted names in **generic and branded generic formulations**, with a robust portfolio of **over 300 products** across multiple therapeutic categories and dosage forms.

Headquartered in **Vadodara, Gujarat (India)**, **Hamax Healthcare LLP** operates a state-of-the-art manufacturing facility managed by a team of experienced professionals with deep expertise in formulation science and regulatory compliance. The company's unwavering commitment to **quality, innovation, and affordability** has positioned it as a reliable partner for healthcare organizations across the globe.

Manufacturing Excellence

Our manufacturing facility in Vadodara, Gujarat is equipped with advanced technology and adheres strictly to WHO-GMP and cGMP guidelines. Each product is developed under stringent quality control and assurance systems to ensure purity, efficacy, and safety.

Our Global Footprint

Hamax Healthcare LLP is currently in the process of product registrations in more than 10 countries across Asia, Africa, and the Middle East, with a growing presence in both regulated and semi-regulated markets.

The company has established strategic partnerships with several reputed organizations, including Uni-chem Laboratories, Rusan Pharma, and Zota Healthcare, among other multinational and leading national companies. Through these collaborations, Hamax provides reliable manufacturing support and high-quality finished formulations that meet international standards of quality and compliance.

Mission

To provide cost-effective and high-quality medicines to families in India and across the world ensuring affordability without compromising on quality.

Our Heritage and Growth Journey

Founded with a vision to make quality medicines accessible to all, Hamax Healthcare began its manufacturing operations in 1985, focusing initially on solid oral dosage forms. Guided by the principle of "Quality and Competitiveness", the company rapidly expanded its operations and product range, earning a reputation for reliability and integrity within the Indian pharmaceutical industry.

By 1994, Hamax Healthcare held manufacturing licenses for more than 100 pharmaceutical products across seven dosage forms. Tablets, Capsules and Dry Powders. It was officially granted Good Manufacturing Practice (GMP) certification by the Indian FDA.

Vision

To become one of India's leading pharmaceutical formulation manufacturers by achieving excellence in manufacturing, continuous innovation, and an unwavering commitment to quality and patient well-being.

During the following decade, the company built a strong domestic presence with operations across 20 Indian states and a network of over 70 distributors. This foundation laid the groundwork for its successful entry into international business beginning in 2010, marking a new era of expansion and strategic collaborations.

Key Capabilities

- More than 300 approved formulations.
- Production of solid dosage forms.
- Dedicated teams for formulation development, regulatory documentation, and international business support.
- Regular audits and certifications to maintain compliance with global quality standards
